Type: ROUTINE INSPECTION
Date: 21-AUG-2014

3.8

EXERCISE FOR DOGS.

There was no written exercise plan for the facility, although the dogs were provided with large enclosures. It is important that the dogs have opportunity for their natural movements in play, exercise and socializing with other dogs and humans to promote good physical and mental health. A written exercise plan that is approved and signed by the attending veterinarian is important to indicate that the dogs have the opportunity for exercise. The licensee must have a written exercise plan, signed by the attending veterinarian, on hand at the facility.

TO BE CORRECTED BY: 29 AUGUST 2014

3.10

WATERING.

In the outdoor enclosures there were 4 water receptacles that had a green residue on the inside surface. The water appeared to have a faint green tinge to it. Clean water receptacles are important to promote good health to the animals and reduce the risk of disease. The water receptacles must be cleaned and sanitized and maintained.

TO BE CORRECTED BY: 22 AUGUST 2014

An exit interview was conducted with a facility representative.
