Certificate: **64-C-0250**  
Site: 001  
BARKING COW FARMS, LLC

Type: ROUTINE INSPECTION  
Date: 12-SEP-2022

---

### 2.134(a)

#### Contingency planning.

The facility does not have a written contingency plan. Contingency planning is essential for protecting animals in the event of emergencies. Correct by 10/15/22 by documenting a contingency plan in accordance with the requirements in the Animal Welfare Act, and by training employees on the contents of the plan.

### 3.127(d)

#### Repeat

#### Facilities, outdoor.

3 red kangaroos are contained in a large enclosure with 8-foot-tall chain link fence. The perimeter fence around the kangaroo enclosure is made of wire farm fencing and is approximately 4.5 feet tall. The facility is in the process of constructing a new kangaroo enclosure which will have an 8-foot tall perimeter fence, but the new enclosure is still under construction and is not yet in use. A perimeter fence must be strong and tall enough to prevent entry of unauthorized people and animals, and to act as a secondary containment system in the event that an animal escapes from its primary enclosure. Correct by maintaining a perimeter fence around the kangaroo enclosure that is at least 6 feet tall and 3 feet away from the kangaroo primary enclosure, or by obtaining a variance from USDA. A perimeter fence must also be maintained around any existing or new exotic animal enclosures in accordance with the Animal Welfare Act regulations.

This inspection and exit interview were conducted with the licensee.
