2.31(c)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The IACUC's report to the Institutional Official dated 13 January 2015 and 6 May 2015 concerning the outcome of the program and facility review contained a paragraph outlining that minor deficiencies were identified in the facility's physical facilities. The report did contain a reasonable and specific plan for correction; however, did not supply a schedule with dates for correcting each deficiency. A reasonable and specific plan and schedule with dates for correcting each deficiency is required in order to ensure that all deficiencies are addressed in a timely manner to protect the health and well-being of the animals. The registrant must ensure that all future facility and program review reports contain a specific plan and schedule with dates for correcting each deficiency identified.

To be corrected from this point forth.

Inspection and exit interview conducted with facility representatives.
