Type: ROUTINE INSPECTION
Date: 19-DEC-2019

3.127(d)

FACILITIES, OUTDOOR.

The perimeter fence is incomplete. An approximately 12 foot section of the tiger enclosure is not enclosed by a perimeter fence. On the opposite side, the perimeter fence appears to be less than 8 feet high. Without a perimeter fence, the tigers could be exposed to unauthorized persons or animals, which may pose a disease hazard. All outdoor housing facilities must be enclosed by a perimeter fence which must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility.

Correct by: January 2, 2020

This inspection and exit interview were conducted with the Facility Representative.
