MANNHEIMER FOUNDATION INC

Type: ROUTINE INSPECTION

Date: 28-SEP-2015

2.31(d)(1)(2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Protocol # 2015-04 (category D) lists three publications to demonstrate that the PI has considered alternatives to procedures that may cause pain. The protocol, however, does not provide any written narrative as to the methods and sources used to determine that alternatives were not available (databases search, date range of the search, keywords, etc).

The protocol form that this registrant uses clearly states that the search must include the databases searched, date of the search, period covered, and keywords used. This was not done in this case.

This information is required for all projects that may involve more than momentary pain or distress to the primates.

Correct by October 21, 2015

The exit interview was conducted with the Director.

Inspection performed September 28-29, 2015
