### 3.75(e)

#### Housing facilities, general.

A large plastic wrapped pallet of Mazuri brand primate diet was delivered that morning according to the licensee. There were hundreds of small bugs under the plastics wrap. One bag had been punctured and the bugs appeared to be coming out of this open bag. The feed in this bag was crumbling and degraded. (e) Storage. Supplies of food and bedding must be stored in a manner that protects the supplies from spoilage, contamination, and vermin infestation. This bag needs to be disposed of properly and the other bags checked for infestation and quality of the feed.
