2.75(b)(1)(iv)

Records: Dealers and exhibitors.

The facility's disposition records are incomplete. The sales slips do not include the name and address of the dealer or buyer who purchased the guinea pigs. Failure to maintain sale records that include the name and address of the dealer or buyer can make it difficult track animals for trace back and trace forward and to document changes in ownership. The licensee must maintain sale records that include the name and address of the buyer. Correct by March 12, 2021.

3.31(b)

Sanitation.

Housekeeping. There were accumulations of dry and wet hay covering the floor and empty bags stored on the floor. Animal facilities must be kept clean and in good order to protect the health of the animals and prevent pest problems. Ineffective cleaning and housekeeping can expose the animals to disease and health problems. Correct by ensuring the premises are kept clean, including: removing empty bags and loose hay on floor, and maintaining a level of general cleanliness to support good animal husbandry and health. Correct by March 12, 2021.

This inspection and exit interview were conducted with a family member.
