Date: 29-SEP-2014

2.36(b)(5)

ANNUAL REPORT.

The facility annual report submitted in 2013 failed to identify 332 gerbils used in research that involved no pain, distress or use of pain relieving drugs. These animals should have been reported in category C on the annual report.

Accurate reporting of animal species and numbers is necessary to maintain communication with the USDA regarding animal use and animal welfare in research .A corrected 2013 annual report should be submitted to the western regional office.

Correct by: October 29, 2014.

2.36(b)(6)

ANNUAL REPORT.

The facility annual report submitted in 2013 failed to identify one gerbil used in research that involved pain or distress and the use of pain relieving drugs. This animal should have been reported in category D on the annual report.

Accurate reporting of animal species and numbers is necessary to maintain communication with the USDA regarding animal use and animal welfare in research. A corrected 2013 annual report should be submitted to the western regional office.

Correct by: October 29, 2014.

2.36(b)(7)

ANNUAL REPORT.

The facility annual report submitted in 2013 failed to identify five gerbils used in research that involved unrelieved distress for up to 2 hours. No measures were taken to relieve the distress. These animals should have been reported in category E with an explanation regarding the cause of unrelieved pain or distress attached to the annual
