Certificate: **33-C-0218**  
Site: 001  
KAREN & GREGG WOODY

Type: ROUTINE INSPECTION  
Date: 25-MAR-2024

### 2.75(b)(1) Critical Repeat

#### Records: Dealers and exhibitors.

A second request to inspect the records on the zebu and mini cows at the facility, including the nine zebu that were bought at an auction in MO on April 6, 2023, and a Dingo that was received/transported from a zoo in MI on December 6, 2023 was refused. There are two health certificates from the Minnesota Board of Animal Health that show the licensee did receive 2 miniature Scottish highlanders on February 2, 2024, and 2 Highlander on March 5, 2024, from a facility in MN. When asked to look at the records for any exotic cattle he bought, transported, or sold since December 2023, the licensee would not produce any records and advised he did not have to produce any records if he tells the USDA that he is only using the animals for agricultural activities. Upon being asked multiple times by the licensee about whether agricultural animals are regulated, it was explained to the licensee multiple times that the records of animals need to be disclosed during an inspection to determine if regulated activities are or are not being conducted.

The refusal of a licensee to allow inspectors to look at records(acquisition/dispositions) of a facility does not provide for proper traceability of regulated animals and makes it impossible to determine the origin/disposition and use of animals being bought/sold/used at a facility. Only after seeing the records on the animals in question (exotics or domestic) can it be determined by inspectors if the animals are being used for regulated vs unregulated business.

Every dealer other than operators of auction sales and brokers to whom animals are consigned, and exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning animals other than dogs and cats, purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born or hatched of any animal while in his or her possession or under his or her control, to the extent that any identification or counting of offspring can be carried out without unduly disturbing nesting or rearing activities.

This inspection and exit interview were conducted with licensee.
