### 3.125(c)

#### Facilities, general.

The refrigeration racks for thawing meat in the lion food prep area were peeling and rusty. Chips of paint and rust could get into the food. These racks cannot be cleaned and sanitized properly. Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against deterioration, molding, or contamination. Refrigeration shall be provided for supplies of perishable food. These racks need to be repaired or replaced.

Correct by: 07-09-21

### 3.131(b)

#### Sanitation.

There are two areas where waterers were removed and the concrete behind it is now exposed. This is on either side of the lion night housing wall of cage numbers 5 and 6. These areas need to be made impervious to moisture to enable them to be cleaned and sanitized properly.

Correct by: 07-25-21

This inspection and exit interview were conducted with the curator and attending veterinarian.
