Type: ROUTINE INSPECTION
Date: 24-JUN-2025

2.78(a)

Health certification and identification.

On June 19, 2025, the licensee transported a squirrel monkey across state lines without obtaining a health certificate. Health certificates are important for ensuring that animals are healthy, fit for travel and appear free of any infectious disease or physical abnormality that would be a danger to themselves, other animals, and the public. A health certificate issued by a licensed veterinarian, dated not more than 10 days prior to the transportation, must accompany all non-human primates.

Correct from this date forward June 23, 2025

This inspection and exit interview were conducted with licensee.
