THE WILD ANIMAL EXPERIENCE

Type: ROUTINE INSPECTION  
Date: 08-JUN-2016

### 2.40(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

\*\*\* One of the Zebra's had back hooves that need to be trimmed. Overgrown hooves need to be monitored and trimmed on a routine basis if the hooves do not wear down naturally. This is to prevent any injury or walking abnormality if the hooves grow too long impacting the animals gait. The attending vet needs to be consulted and a program put into place for these routine husbandry concerns.

correct by: June 15, 2016

### 3.81(c)(1)

#### ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

\*\*\* The facility has three juvenile olive baboons in the main building in an enclosure that has no platforms or climbing areas and no areas that allow them to hide from the guests. Young baboons should have areas that allow them to hide from public view to reduce any stress behaviors. These animals need to have additional enrichment enhancements listed in their program to assure the psychological needs of these animals are met.

Correct by: June 10, 2016

### 3.127(b)

#### FACILITIES, OUTDOOR.

\*\*\* The fallow deer enclosure has one shelter structure for 13 deer with fawns due any day. There should be an additional structure that allows all the animals to comfortably fit into the shelter during times of inclement weather. This needs to be addressed for the comfort of the deer.

Correct by: July 5, 2016

### 3.128

#### SPACE REQUIREMENTS.

## Inspection Report

---

\*\*\* The enclosure for the fallow deer needs to be addressed. There are 13 deer in the pen with additional fawns due to be born soon. The enclosure was very open with one shelter and some trees, but there are no visual barriers, or tall grasses or vegetation. Normal postural and social adjustments for these animals is to have areas where they can feel hidden from guests to give birth and then hide the fawns for safety. This enclosure needs to be addressed to provide elements of hide areas for the comfort and well being of the deer.

Correct by: June 11, 2016

An exit briefing was conducted with the licensee at the time of the inspection.
