2.35(f)

Recordkeeping requirements.

During inspection, the medical records pertaining to sheep used in September of 2024 were unavailable for inspection as they were stored off-site. Inability to furnish records at the time of inspection may compromise the ability of inspectors to assure investigator compliance with IACUC-approved protocols and relevant Animal Welfare Act regulations. The facility must assure all records relating directly to IACUC-approved activities are available for inspection at reasonable times.

Correct by March 5, 2025.

This inspection and exit interview were conducted with a facility representative.
