### 3.154

#### Environment enhancement to promote psychological well-being.

The facility has provided social grouping and enrichment items for their birds, within their enclosures. However, a written plan has not been documented and approved by the attending veterinarian. The written plan is necessary to show that the facility is providing their birds environmental enhancements to promote their psychological health and well-being.

Facility must provide a veterinary approved program of environmental enhancement for its birds and said plan must be made available to APHIS upon request.

Dealers, exhibitors, and research facilities must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides.

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by February 9, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
