Wildlife Center Of Virginia  
Po Box 1557  
Waynesboro, VA 22980

Customer ID: 1910

Certificate: 52-C-0017

Site: 001

WILDLIFE CENTER OF VIRGINIA

Type: ROUTINE INSPECTION

Date: 07-AUG-2014

---

### 3.125(a)

#### FACILITIES, GENERAL.

There are 3 outdoor walk-in enclosures housing opossums. On the left side of the center enclosure the wire panel is coming loose from the vertical wooden support. The enclosure needs to be kept in good repair to prevent injury to the animals, to contain the animals and to prevent unwanted animals from entering the enclosure.

All 3 enclosures show signs of aging, wear, and degradation and it is recommended that they all be carefully inspected on a regular basis for areas that need repair and that some priority be put on their replacement.

The loose wire needs to be repaired by 15 August 2014

An exit interview was conducted with a facility representative.
