PENSACOLA, FL 32534

Customer ID: **501655**
Certificate: **58-C-1183**
Site: 001
ANIMAL TALES LLC

Type: ROUTINE INSPECTION
Date: 25-JUL-2024

3.125(a)

Facilities, general.

Two primary enclosures housing one kinkajou each per enclosure were found to have areas of vinyl flooring that had been torn away from the wooden floor underneath. These damaged areas of flooring present a risk of ingestion by the animals. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. Correct by August 8, 2024.

3.127(d)

Facilities, outdoor.

The primary enclosure housing the coati was measured to be 29 inches away from the perimeter fence. Insufficient distance between the primary enclosure and perimeter fence may allow unwanted contact between animals inside the enclosure and animals or persons outside the perimeter fence. Such fences less than three feet in distance from the primary enclosure must be approved in writing by the Administrator. Correct by seeking approval from the Administrator or moving the enclosure at least three feet away from the perimeter fence. Correct by August 8, 2024.

This inspection and exit interview were conducted with a facility representative.

Additional Inspectors:

David Mersereau, VETERINARY MEDICAL OFFICER

Marla Renshaw, VETERINARY MEDICAL OFFICER
