DAWN CORDEIRO

Type: ROUTINE INSPECTION
Date: 22-NOV-2016

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

Records for Animals other than Dogs and Cats.

1. The acquisition and disposition records were not current for 4 animals that arrived or left the facility since the last inspection. There was no record of acquisition for the new female goat that gave birth on 10/11/16 and there was no record of disposition for the 3 piglets that arrived at the facility on 7/27/16 but are no longer on the premises. No information was recorded for these animal transactions.

Per this Section of the Regulations, exhibitors shall make and maintain complete records regarding the details of the acquisition and disposition of animals in their possession in order to account for all animal transfers and the sources of the animals.

The Licensee needs to ensure that the complete acquisition or disposition information is recorded for these 4 animals as well as for all future animal transactions.

Correct by 12/1/16.

3.131(c)

SANITATION.

Housekeeping.

1. The following housekeeping items were identified at the time of the inspection. One approximately 6 foot long section of cattle 4x4 panel fencing of the outdoor goat pen was leaning outwards and wobbly when minimal pressure was applied by the inspector; some of the wire used to secure a few sections of the cattle 4x4 fencing panels to the vertical fence posts of the outdoor goat pen had sharp points that were bent into the pen at animal level; and there were several approximately 3 foot long pieces of baling twine located on the ground inside the outdoor goat pen and shelter. This affected 9 goats.

Inspection Report

Per this Section of the Regulations, premises shall be kept clean and in good repair in order to protect the animals from injury, to facilitate the prescribed husbandry practices, and any trash shall be cleared as necessary to protect the health of the animals.

The Licensee needs to repair the leaning fence of the outdoor goat pen; check all fences for and trim back any sharp points of wire; and monitor all of the animal pens for and promptly remove any trash found in the pens. These corrections are important for the safety and health of the animals.

Correct all items by 12/1/16.

NOTE - Exit briefing held 11/22/16 on-site with Licensee. Report delivered by e-mail 11/25/16.
