

## Inspection Report

---

William Meadows  
963 County Street 2930  
Tuttle, OK 73089

Customer ID: **5978**  
Certificate: **73-C-0122**  
Site: 001  
William Meadows

Type: ROUTINE INSPECTION  
Date: 08-JUL-2025

---

### 3.131(c)

#### Sanitation.

- There was an excessive overgrowth of weeds and vegetation in an enclosure housing an adult male lion and an enclosure housing an adult male grizzly bear. Overgrowth of weeds and grasses can prevent proper cleaning of enclosures, reduce the effectiveness of daily animal observations, and serve as harborage for pests and insects. Premises must be kept clean and in good repair to protect the animals. Licensee must address the overgrown enclosures and maintain the grounds as often as needed.  
Correct by 15 July 2025

### 3.153(a)(1)(i)

#### Primary enclosures.

- A wooden shelter box for two cockatoos is extremely worn, to the point that multiple sharp points are exposed to the birds. This is a source of potential injury to the animals. Primary enclosures must be constructed so that they have no sharp points or edges that could injure the birds. Licensee must ensure that all sharp points are removed.  
Corrected at the time of inspection

This inspection and exit interview were conducted with licensee.
