Certificate: **35-C-0020**

Site: 001
County of Milwaukee

Type: ROUTINE INSPECTION
Date: 09-APR-2025

2.131(b)(1) Critical

Handling of animals.

On October 29, 2024, while the zookeeper was manually shutting a shift door between 2 indoor winter enclosures, one of the two adult male crowned cranes within the enclosure charged the large, sliding shift door. The zookeeper was following routine procedures and watching the bird, but wasn't able to stop the heavy door in time from closing on the crane's neck. The attending veterinarian and area supervisor were called immediately but the crane died within 10 minutes of the incident.

Handling of all animals shall be done as expeditiously and carefully as possible in a manner that does not cause trauma, overheating, excessing cooling, behavioral stress, physical harm, or unnecessary discomfort. Correct by ensuring that proper handling techniques are used to shift and handle all animals to prevent stress or injury.

***Correct 4/10/25 going forward

This inspection and exit interview were conducted with the facility representatives.
