Type: ROUTINE INSPECTION
Date: 30-DEC-2014

2.75(a)(1)

RECORDS: DEALERS AND EXHIBITORS.

Records had not been kept regarding the sale of five animals. Five animals had been sold approximately one month prior to the inspection and no details regarding those sales were available for review. The applicant must record complete information regarding animal sales, including the name and address the person purchasing an animal and that person's license or registration number if he or she is licensed or registered under the Animal Welfare Act.

Complete and accurate records must be kept in order to ensure that each animal's identity can be known with certainty and to facilitate tracking/tracing of animals.

Correct by January 16, 2015.

2.131(b)(1)

HANDLING OF ANIMALS.

A five week old Serval was killed by an adult domestic cat shortly after being purchased in August, 2014. The adult cat attacked and killed the Serval in an outdoor enclosure before the licensee could intervene. The licensee stated that he was standing next to the Serval at the time of the attack and did not believe that any other cats had access to that area.

Animals should be handled in such a manner as to avoid physical harm. The licensee should ensure that juvenile animals are protected from harmful situations, including contact with other animals.

Correct immediately.

An exit briefing was conducted with the licensee.
