Customer ID: 3117

Certificate: 58-C-0002

Site: 001

JACKSONVILLE ZOOLOGICAL SOCIETY

Type: ROUTINE INSPECTION

Date: 06-JUL-2016

2.131(c)(1)

HANDLING OF ANIMALS.

There is a small area on the left side of the bobcat lockout that does not have a barrier to prevent the public from gaining access to the exhibit.

The public can walk unimpeded back to this area. This lack of a complete public barrier to the exhibit does not minimize the risk of harm to the animal or to the public.

Correct by August 1, 2016

This is a focused inspection limited to the reinspection of all non compliant items identified on the last inspection, as well as the animal exhibits/areas of those non compliances.

Acquisition, disposition, & animal death records since the last inspection were also reviewed.

The exit interview was conducted with the facility veterinarian and the Deputy Director of Animal Care.
