WILDLIFE ENCOUNTERS L L C

Type: FOCUSED INSPECTION

Date: 28-AUG-2024

3.127(a)

Facilities, outdoor.

15 Sheep were turned out in a field for the day with a donkey and did not have sufficient shaded space in the outdoor field for all animals. Sunlight on an 84 F degree day may cause fiber animals to overheat or be uncomfortable. The facility must ensure that adequate space is provided for shade for all animals at the same time.

Correct by 30 August 2024.

This inspection and exit interview were conducted with the facility representative.
