### 3.127(d)

#### FACILITIES, OUTDOOR.

The perimeter fencing for the facility is approximately 6 ft high, with a charged electric wire on the top and bottom. As Cheetahs fall into the category of big cats, the requirement is for the perimeter fence to be at least 8 ft high to act as a secondary containment system, unless a variance is obtained. Variance may be requested from the regional office based on site location, security measures and other factors.

Correct by 2-1-16

Exit interview conducted with facility personnel.
