Type: ROUTINE INSPECTION
Date: 15-SEP-2015

3.4(b)(3)

OUTDOOR HOUSING FACILITIES.

An enclosure in the outdoor housing area has a shelter structure that is missing the metal door at the entrance. The licensee stated the door was broke off by the dogs. An adult male and female German Shepherd have access to the shelter. Missing doors or entryway flaps at the entrance of the shelter provide little to no protection from the direct effects of wind, snow or rain blowing on to the dogs. The licensee must ensure all outdoor shelter structures have wind and rain breaks at all times for the health and well being of the dogs.

To be corrected by: September 19, 2015.

Exit briefing conducted with the licensee.
