Type: ROUTINE INSPECTION
Date: 16-JAN-2024

2.40(a)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There was no established program of veterinary care or identified attending veterinarian at time of inspection. Failure to have an attending veterinarian to provide guidance on adequate veterinary care and to oversee the adequacy of other aspects of animal care may result in poor husbandry and preventable disease of the animals. Each exhibitor shall have an attending veterinarian who shall provide adequate veterinary care to its animals in compliance with all components of 2.40.

Correct by 28 January 2024.

2.126(a)(2)

Access and inspection of records and property; submission of itineraries.

Complete disposition records were not available for review at time of inspection. The facility representative indicated that they were transferred to their residence for tax accounting. Failure to have required records available for review impedes APHIS officials' ability to carry out their duties. Each exhibitor shall during business hours allow APHIS officials to examine records required to be kept by the Act and the regulations.

Correct from this date forward of 19 January 2024.

3.154

Environment enhancement to promote psychological well-being.

At time of inspection, an environmental enhancement plan for birds that documents the appropriate provisions to provide enrichment and special considerations and is approved by the attending veterinarian has not been developed by the facility. This plan is necessary to ensure the psychological well-being and health of the animals. The facility must ensure that a documented plan for environmental enhancement that addresses the required elements approved by the attending veterinarian is maintained and available for inspection.

Correct by 28 January 2024.
