

Inspection Report

Dr Cathy Cranmore
111 F M 21
Mount Pleasant, TX 75455

Customer ID: **3923**
Certificate: **74-B-0570**
Site: 001
Dr. Cathy Cranmore

Type: ROUTINE INSPECTION
Date: 06-JUL-2016

3.125(a) REPEAT

FACILITIES, GENERAL.

(a) Structural strength.

On the date of inspection the painting of the posts and framework throughout the facility originally sited on the 9/2/14 inspection report and underway as evidenced on the focused inspection of 3/2/16 has had very little progress from the date of that inspection and has not been completed.

3.127 REPEAT

FACILITIES, OUTDOOR.

(d) Perimeter fence.

At time of inspection a required perimeter fence of at least 6 foot in height and 3 foot or more from the existing enclosure fence had not been constructed along the outside or inside of the facilities existing fence. The facility remains without a required perimeter fence.

The inspectors on the inspection of 11/12/15 had discussed with the licensee how a fence could be added to the exterior or interior to meet the requirements for perimeter fence. The inspectors discussed how to go about requesting an extension of time for correction if significant progress had been made but more time was required.

The licensee was also given information as to how to go about requesting a variance from the need for perimeter fence. The recommendation to submit pictures of the facility with the request to show the reasons for feeling a perimeter fence was not necessary for this facility and any other information which would support the request.
