Springfield, MO 65802

Customer ID: **329885**
Certificate: **43-B-3727**
Site: 002
PET WAREHOUSE, INC.

Type: ROUTINE INSPECTION
Date: 01-JUL-2015

3.131(a)

SANITATION.

a) Cleaning of Enclosures.

The litter box in the ferret enclosure had a large amount of dried fecal matter stuck along the inside walls of the container. The litter appeared to have been changed within the past 24 hours, but the fecal matter on the walls of the litter box appeared to be several days old. Fecal matter can cause odors and can harbor diseases that can affect the health of the animals. The licensee must ensure that excreta is removed from primary enclosures as often as necessary to prevent contamination of the animals, to minimize disease hazards, and to reduce odors. TO BE CORRECTED BY JULY 3, 2015.

The inspection and the exit briefing were conducted with the store manager and with Bill Heine-ACI.

Additional Inspectors

Heine William, Animal Care Inspector
