Site: 001

CHEROKEE ENTERPRISES, INC.

Type: ROUTINE INSPECTION

Date: 17-MAR-2014

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

***** PVC is not completely filled out and the last time the attending veterinarian visited the facility was 03/2012 according to the signature page of the PVC. The program of vet care provides a source of information that tells what vaccinations will be given, de worming programs, parasite control programs or methods used to euthanize all animals on the premise and who the vet of record for the licensee will be. When the program of vet care is not completely filled out information on how the licensee provides for the health and well-being of all the animals on the premise has not been recorded. The licensee, in coordination with the attending veterinarian, must provide more specific information on the type of products used at the facility, the frequency of use, and ensure that the attending veterinarian is observing the animals and visiting the facility annually. USDA regulations require that the program of vet care must be completely filled out & must be made available at the inspector s request at the time of the facility inspection.

*To be corrected by 04-17-2014.
