Type: FOCUSED INSPECTION

Date: 21-MAR-2024

2.1(a)(1)

Requirements and application.

The individual is conducting regulated activity without a valid USDA license. The individual consigned 4 exotic animals (muntjac- auction tags #7474, #7475, #7476, and #7477) to an auction. When dropping off the animals, the individual was asked if they were licensed with the USDA and the individual told the USDA inspector "no". The individual then left the consignment area without the animals (the animals were consigned).

A valid license is required to consign exotic animals to an auction. A valid license is necessary to protect the health and well-being of animals and to comply with the Animal Welfare Act and Regulations. Correct by obtaining a USDA license or discontinuing regulated activities. No regulated activity may be conducted until a USDA license is obtained.

The individual refused an exit briefing. This inspection was conducted in Mt Hope, Ohio.
