Site: 003

THE FARM AT WALNUT CREEK

Type: ROUTINE INSPECTION
Date: 19-FEB-2014

3.125(d) REPEAT

FACILITIES, GENERAL.

Waste disposal

A large heap of animal waste, bedding, and other material remains in the drive through animal enclosure. Animals enclosed in this area of the facility have free access to the waste. This exposes the animals to disease hazards. Licensee must provide for the removal and disposal of animal and food wastes, bedding, and debris.

Remains Uncorrected

3.130 REPEAT

WATERING.

There continues to be no potable water source for the animals in the drive through area. Ponds present in this area are frozen. A small amount of water is running from a drain pipe that feeds into one of the ponds. Animals must have access to clean, potable water for optimal health and well-being. Clean and potable water must be provided at all times, or as often as necessary for the health and comfort of the animals. Licensee must ensure that all animals are provided with potable water and that all water receptacles are clean and sanitary.

Remains Uncorrected

Exit briefing conducted with facility representative.
