Contingency planning.

The facility last reviewed and revised the contingency plan on 7/24/22. In 2023, the IACUC reviewed the contingency plan, but the changes had not been added to the plan at the time of inspection. Updates to the contingency plan should be documented in the plan in a timely matter. The facility must document the changes to the contingency plan, in accordance with the regulations, to ensure animals are humanely handled during an emergency or disaster. Correct by August 30, 2024.

This inspection and exit interview were conducted with the facility representatives.
