Certificate: **93-C-0581**
Site: 001
JOEL ALMQUIST

Type: ROUTINE INSPECTION
Date: 21-OCT-2016

3.131(c)

SANITATION.

- Several stacks of empty wire cages were stored next to the llama enclosure. Desert brush/weeds were growing around and in between the cages.
- Miscellaneous tools/equipment, a barrel, and several buckets were openly stored directly next to or leaning against a bobcat enclosure.
- There were several bundles or layers of sticks and other dried, plant material, a ladder and tarp-like materials lying on the ground along a short, wooden fence which is next to a leopard enclosure.

-Food storage/supplies room: There is a general accumulation of clutter in this room with miscellaneous animal supplies, cleaning materials and other animal items stored in an untidy and unorganized manner. Along one wall in this room were several bags (some opened) of dog and cat food and boxes/bags of cat litter which were disorderly, stacked several feet high and directly on the floor. Licensee stated this dog/cat food and cat litter are collected for donation and not used for any of the covered animals at this facility.

Premises including buildings, surrounding grounds and other animal areas must be kept clean, free of clutter and in good repair in order to protect the health and well-being of the animals, to prevent the harborage of vermin and pests, and to facilitate the prescribed husbandry practices. A system of maintaining effective housekeeping practices must be in place.

Correct by 11/25/2016.

This inspection and exit interview were conducted with a facility representative.

Additional Inspectors

Lee Jeffrey, Veterinary Medical Officer
