Type: ROUTINE INSPECTION
Date: 13-MAR-2023

2.75(b)(1)

Repeat

Records: Dealers and exhibitors.

A current record of guinea pigs on hand was not available at time of this inspection. A total of 858 guinea pigs were counted during the inspection. There were no inventory records kept for several months indicating the number of adult guinea pigs, weanlings, and newborns held, raised, or born. Failure to maintain these records can make it difficult to assess the health of the caviary by identifying losses by decreased number of guinea pigs born or raised. The licensee must keep and maintain records containing the required information which discloses the number of guinea pigs held, owned, acquired or disposed of including births. Remains uncorrected.

This inspection and exit interview were conducted with the licensee.
