INDIAN CREEK INVESTMENT I I I, L L C

Type: ROUTINE INSPECTION  
Date: 24-JUL-2017

### 2.40(b)(4)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The following expired drugs were noted to be found and used on the covered exhibit animals. Bovine Vaccine expired 15 November 2016, Rabies Vaccine expired 30 October 2016, (2) vials of Cystorelin 50mg/ml, expired 6-14 2016, Oxoject, expired 13 June 2016, another vial of Rabies vaccine expired 20 August 2016 and Oxtocin with no expiration date found. Expired drugs must not be used on the animals. Expired drugs are not effective and may not provide proper treatment and could cause harm to the animals receiving them. The licensee must contact the Attending Veterinarian and have these drugs disposed of properly and create a monthly check for expired drugs. Correct by 7-28-2017

### 2.131(c)(1)

#### HANDLING OF ANIMALS.

A young primate called a (Ringtail Lemur) is on exhibition in the education room without a sufficient barrier. The enclosure is in an area with a large amount of public viewing including school children who could potentially reach in and get scratched or bitten. During public exhibition, any animal must have barriers with sufficient distance between the animal and the general viewing public. To assure the safety of the animals and the viewing of the general public. The licensee must place a sufficient sturdy barrier that is of sufficient distance around this primate enclosure to protect the animal and assure the safety of the public. Correct within 24 hours

### 3.127(d)

#### FACILITIES, OUTDOOR.

The perimeter fence on the east side that runs south and north is down from high winds and trees falling on it. The perimeter fence is needed to keep unauthorized persons and stray animals out. The 8 foot high perimeter fence is also needed to contain the exhibit animals. The licensee must repair or replace the approximately 40 to 60 feet of downed perimeter fence to avoid injury to the animals in case of an escape. Correct within 72 hours

## Inspection Report

---

### 3.131(c)

#### **SANITATION.**

The weeds around the timber wolfs enclosure are to high. Overgrown weeds around such an enclosure that has loose dog feed is a harboring area for rodents. Rodents can hide in these overgrown areas of weeds and cause harm or transfer diseases to the timber wolfs. The licensee must trim all weeds around enclosures and any excessively overgrown weeds in all enclosures.

Correct by 7-28-2017

(The inspection was conducted with the on site Veterinary Technician).
