KAY AND CLAYTON ROSAIRE
MOWREY

Type: FOCUSED INSPECTION

Date: 25-JUN-2025

2.40(b)(2)

Direct

Repeat

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

On April 23, 2025, three adult goats were identified as in need of veterinary care. These goats had moderate to severely overgrown hooves. At the time of inspection, the goats had not received care and their hooves were still overgrown.

Overgrown hooves can alter natural stance and lead to abnormal gait, reluctance to move, pain and discomfort.

Each exhibitor shall maintain programs of adequate veterinary care that includes appropriate methods to prevent, control, diagnose, and treat diseases.

This inspection and exit interview were conducted with a facility representative.
