STEPHEN STOLL

Type: ROUTINE INSPECTION
Date: 04-MAR-2014

No non-compliant items identified during this inspection.

This is a focused inspection on the Direct NCI from the inspection on February 11, 2014.

The veterinarian came to the facility and did multiple dentals on the affected dogs (King, #2658) and diagnosed and provided treatment for the dogs that had eye issues. The licensee has been treating all of the affected dogs with eye issues and has gone through the kennel and identified and worked on any dogs with buildup on their teeth.

The dogs treated with the eye medicine look much better, and the dogs that had dentals appear to be healthy and healing well. The licensee addressed all concerns in a timely manner and has continued to document and provide treatment.

Inspection and Exit interview conducted with facility representative.
