Commonwealth Zoological Corporation  
One Franklin Park Road  
Boston, MA 02121

Customer ID: **1973**

Certificate: **14-C-0001**

Site: 001

Commonwealth Zoological  
Corporation

Type: ROUTINE INSPECTION

Date: 18-MAR-2025

---

### 3.84(c)

#### Cleaning, sanitization, housekeeping, and pest control.

Two skylights above the gibbon pens have damaged, torn and dirty screens. Without intact screens, insect vermin may enter the pen when skylights are opened, or the excessive buildup of debris or ripped pieces of screens may fall into the pens and present an ingestion hazard, possibly leading to illness. The facility must ensure that the area above the pens is kept in good repair to facilitate adequate housekeeping to maintain the animals in good health.

Correct by 3/31/2025

### 3.125(a)

#### Facilities, general.

The metal interior of the door to the agouti's den was damaged and had a sharp, curled up bottom edge. The wooden wagon in the jaguar's enclosure had a rusted, deteriorating wheel support apparatus. Sharp edges and rusted metal may be at risk of causing injury and cannot be adequately cleaned. The facility must ensure that the enclosures are kept in good repair to prevent risks to animal welfare.

Correct agouti pen by 03/31/2025 and jaguar pen by 04/26/2025.

### 3.131(c)

#### Sanitation.

The ceiling in the Sierra Madre kitchen had dried old food splashed on it, and the caulking around the sink was damaged, had a dark buildup, and had separated from the wall in some spots. Maintenance of surfaces in kitchens is important to prevent growth of molds and other contaminants, and facilitates proper practices for sanitation to facilitate husbandry practices needed to support animal welfare. The facility must ensure housekeeping is sufficient to maintain cleanliness in the kitchen area.

Correct by 03/31/2025
