2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*** Male Westie (chip #105774846) was found in need of veterinary care on an inspection dated 16 October 2014. The licensee stated he contacted the attending veterinarian to have this animal examined but the veterinarian was not available until today (28 OCT 2014). Today the dog's foot appears to have improved and the pea sized mass is no longer present. The dog is not limping and does not appear painful when this foot is palpated. The licensee must still have this animal examined by the attending veterinarian to determine if any further treatment is required for this animal. Treatment recommendations and treatments must be documented and maintained for future review by APHIS officials.

Failure to provide prompt appropriate care to the animals for medical concerns may lead to prolonged pain and suffering.

THIS IS A REPEAT NON-COMPLIANT ITEM THAT REMAINS UNCORRECTED

**Inspection and exit interview conducted with the owner.
