HUNT CLUB OF VIRGINIA BEACH INC

Type: ROUTINE INSPECTION

Date: 29-APR-2015

2.131(d)(2)

HANDLING OF ANIMALS.

The public is allowed to enter two sheep and goat pens and have direct contact with the animals. At the time of this inspection there was no readily identifiable attendant in either pen. Attendants are necessary for the safety of both the people and the animals. An attendant must be present at all times during periods of public contact.

To be corrected immediately.

3.125

FACILITIES, GENERAL.

The fence on top of the storage container in the sheep and goat climbing yard does not appear strong enough to contain some of the larger animals in the yard. This fence needs to be reinforced or rebuilt to be more structurally sound in order to adequately contain the animals and protect them from injury.

The fence separating the goat climbing yard from the birthing yard consists of a variety of materials. Some of these materials have sharp points exposed. This fence needs to be repaired or replaced and maintained in good repair to adequately contain the animals and protect them from injury.

To be corrected by: June 1, 2015
