

## Inspection Report

---

Linn County Conservation Department

40 Aaron Batchelder  
10260 Morris Hills Rd  
Toddville, IA 52341

Customer ID: **6012748**

Certificate: **42-C-0242**

Site: 001

Linn County Conservation  
Department

Type: ROUTINE INSPECTION

Date: 24-JUN-2025

---

### 3.131(d)

#### Sanitation.

The facility does not have an effective pest control program. In the building housing the cracked corn feed for the elk there are visible rodent feces on the floor and on the framework surrounding the corn. In the large bales of hay in the animal enclosure there are visible burrows likely caused by mammalian pests. The presence of pests around food supplies can cause contamination of the food and illness in the animals. Correct by having an effective program for the control of insect, mammalian, and avian pests.

To be corrected by 7-14-25.

This inspection and exit interview were conducted with a facility representative.
