VAN DYNE, WI 54979

Customer ID: **31492**
Certificate: **35-C-0268**
Site: 001
MARK D SCHULTZ

Type: FOCUSED INSPECTION
Date: 17-NOV-2021

3.125(a)

Facilities, general.

The following need repair or replacement:

*An enclosure housing 4 goats had wire mesh on the gate that was damaged. The mesh fencing was bent with holes and sharp points.

*The fence dividing an enclosure housing 2 water buffalo and enclosure housing 3 llamas and 9 goats was damaged. The entire length of this fencing dividing the two enclosures was bent on the top with sharp points in several locations.

Enclosures that are not properly maintained could cause injury or death to the animals or allow animals to escape.

Enclosures must be maintained so that they are structurally sound and free from sharp points, loose wires, and holes.

Correct By: December 16, 2021

This inspection and exit interview were conducted with the licensee.
