

## Inspection Report

New Britain Institute  
30 High Street  
New Britain, CT 06051

Customer ID: 1946

Certificate: 16-C-0022

Site: 001

NEW BRITAIN INSTITUTE

Type: ROUTINE INSPECTION

Date: 22-AUG-2014

### 3.53(a)(1)

#### PRIMARY ENCLOSURES.

The brown rabbit hutch is in need of attention. The bottom, right corner of the door has a piece of wood missing. This exposes two screws and weakens the integrity of the door. To ensure that the rabbit is securely contained within this hutch, this door will need to be repaired.

\*\*\*To Be Corrected By: August 30, 2014

### 3.125(a)

#### FACILITIES, GENERAL.

The cow and sheep share a stall in the barn. However, the area directly across from the stall door has a large hole in the asphalt pavement. To ensure that the animals are not injured on this substrate it will need to be addressed.

\*\*\*To Be Corrected By: September 6, 2014

### 3.131(c)

#### SANITATION.

During this inspection it was noted that this facility acquired a new, but old, refrigerator. Although this refrigerator is in working condition the door and sides are rusty and have missing paint. Due to the fact that this appliance is in the food prep / kitchen area it needs to be able to be cleaned in order to facilitate the prescribed husbandry practices. This refrigerator will need to be addressed.

\*\*\*To Be Corrected By: September 23, 2014

An exit briefing was conducted with the licensee.
