Site: 001

DIGNITY HEALTH/BARROW  
NEUROLOGICAL INSTITUTE

Type: ROUTINE INSPECTION

Date: 23-MAR-2023

---

### 2.31(c)(7)

#### Institutional Animal Care and Use Committee (IACUC).

Three adult domestic pigs undergoing anesthesia did not have blood pressure monitoring as specified in their assigned Protocol 222. The IACUC functions to review all details and use of animals to ensure their health and well-being. The IACUC did not approve this significant change in care and use of animals in ongoing activities. Unapproved changes in the protocol can be detrimental to animal health, because it could result in a failure to recognize and address pain and distress in animals. The IACUC must review and approve proposed significant changes regarding the care and use of animals in ongoing activities.

Correct by 7 April 2023.

### 2.38(l)(1)

#### Miscellaneous.

A developed contingency plan was not available at time of inspection. Contingency plans help prepare facilities on how to provide humane handling of animals during emergent events. The registrant must develop a complete contingency plan tailored to the facility and animals on hand. All employees must be trained on their roles and responsibilities within this plan and the facility must maintain documentation thereof.

Correct by 24 April 2023.
