

## Inspection Report

---

SANTAS LAND INC  
571 WOLFETOWN ROAD  
CHEROKEE, NC 28719

Customer ID: 3215  
Certificate: 55-C-0238  
Site: 001  
SANTAS LAND INC

Type: ROUTINE INSPECTION  
Date: 27-MAY-2021

---

### 2.40(b)(3)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There are goats and sheep that recently arrived at the facility. The inspectors observed two Jacobs sheep and one angora goat with front hooves in need of trimming. Allowing the hooves to become overgrown may lead to lameness. All of the hoofstock shall be observed and hoof trimming provided if necessary.

Correct by June 14, 2021.

### 3.75(c)(3)

#### Housing facilities, general.

The lemur enclosure housing the 2 ringtail lemurs has an excessive accumulation of feces that appears to have accumulated over more than a day. Excess accumulations increase the risk of disease hazard. It is concentrated toward the front and around the feeding area on gravel and other surface material where the lemurs have access. The surfaces must be raked or spot cleaned with sufficient frequency to allow the lemurs freedom to move without contacting the excreta to protect them from contamination.

Correct by June 6, 2021.

### 3.80(a)(1)

#### Primary enclosures.

07-JUN-2021

Received by Title: Manager

Date:  
07-JUN-2021

## Inspection Report

---

The enclosure housing the 2 ringtail lemurs has a board that has fallen from the platform. The board has flipped over exposing four pointed nails. These nails could cause punctures or injury if the lemurs come in contact with it. The board shall be removed and the structure repaired or replaced to protect the lemurs from injury. Corrected by end of inspection.

This inspection and exit interview were conducted with the manager.

Additional Inspectors:

Jeffrey Shepherd, SUPERVISORY ANIMAL CARE SPECIALIST
