Type: ROUTINE INSPECTION
Date: 25-NOV-2014

3.125

FACILITIES, GENERAL.

In an enclosure housing a single kangaroo, a section of the enclosure fence is in poor condition with numerous broken boards and numerous sharp points exposed to the enclosed animal. The condition of this fence is a source of potential injury to the animal, and could potentially allow escape from the enclosure. The fence needs to be repaired and maintained in good condition. All sharp points exposed to the animal must be removed.

Correct by: 1 December 2014

Inspection and exit interview conducted with facility representative.

Additional Inspectors

Cunningham Debbie, Veterinary Medical Officer
