#### Environment enhancement to promote psychological well-being.

Although the facility provides enrichment for its birds, a written environmental enhancement plan for birds had not been developed by the facility and was not available for review. This plan is necessary to promote the psychological well-being of birds. Exhibitors must develop, document, and follow a species-appropriate plan that has been approved by the attending veterinarian. The plan must be in accordance with the regulations and with currently accepted professional standards as cited in appropriate professional journals or reference guides. At a minimum, the plan must address each of the following: social grouping, environmental enrichment, special considerations, restraint devices, and exemptions.

This is a 1st Re-License Inspection for a Class ("C") license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by May 4, 2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
