### 2.50(a)(2)

#### TIME AND METHOD OF IDENTIFICATION.

Two enclosures containing puppies in the whelping building did not have appropriate identification either on the puppies or the enclosures. These weaned puppies must have an approved means of identification either on the puppy or on the enclosure with the necessary information. Proper identification is essential in providing basic animal husbandry such as vaccinations and dewormings. To be corrected by: 08/14/15

This inspection and exit interview was conducted with the owner by Curt McGruder-ACI.
