

Inspection Report

Zootah At Willow Park
419 W. 700 S.
Logan, UT 84321

Customer ID: **329235**
Certificate: **87-C-0051**
Site: 001
WILLOW PARK ZOO

Type: ROUTINE INSPECTION
Date: 25-APR-2014

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40 (b) (2) Attending veterinarian and adequate veterinary care

--It appears from the treatment records for the kinkajou with a tooth abscess that it missed 7 antibiotic treatments out of 21 scheduled to be given in a 10 1/2 day period from 2/28-3/10/14 and 7 out of 14 antibiotic treatments scheduled to be given in a 7 day period from 3/30-4/5/14. Antibiotic treatments that are not given appropriately may not be effective in clearing the infection and this may lead to recurrent infection or to pain in the animal. The facility shall establish and maintain appropriate methods to treat animals's illnesses.

To be corrected by 5-17-14.

2.75(b)(1)(3)

RECORDS: DEALERS AND EXHIBITORS.

Sec. 2.75 Records: Dealers and exhibitors.

--The required records for acquisition of the kinkajou on 1/17/14 and for the 2 lynx on 3/4/14 are lacking the Driver's License and state and Vehicle License and state information for the persons from whom they were acquired. Required record information such as the Driver's license and Vehicle license information are necessary in case it is necessary to run a traceback on the source of the animals. The facility shall ensure all the necessary record information, such as the driver's license and state and vehicle license and state for the person(s) from whom they are acquired is recorded.

To be corrected by 5/25/14.

3.125(c)

FACILITIES, GENERAL.

Inspection Report

Sec. 3.125 Facilities, general.

Storage

--An open bag of dry kibble (Advance) for the 2 coyotes is stored with the bag left open in the freezer and this may not prevent contamination of the open food. Contaminated food may cause illness in the coyotes. Chunks of cut up fresh fruit and several bags of chopped salad greens that state on the bag of food "Keep Refrigerated" are not being stored under refrigeration in the commissary due to inadequate refrigerator storage space, according to the facility representative. The facility shall provide a means of appropriate storage, such as storing the open bag in a sealed container and storing perishable fruits and vegetables under refrigeration so as to prevent deterioration or contamination of the food.

To be corrected by 5-25-14.

The inspection and original exit interview were conducted on site with the Education Director. A subsequent telephone exit interview was conducted with the Director.
