Site: JFK

Qatar Airways Cargo - JFK - John  
F. Kennedy International Airport

Type: ROUTINE INSPECTION

Date: 05-DEC-2023

---

### 3.17(c)

#### Food and water requirements.

An 8-month-old male Cotton de Tulear dog was transported by Qatar Airlines, arriving at JFK International Airport on December 5th, 2023 (Air Waybill #157-9325-9983). Upon inspection in the cargo area the dog appeared to be in good health and securely contained within its primary enclosure, however the water dish was not affixed to the carrier and sat empty in the rear of the carrier, inaccessible from outside of the enclosure.

Food and water receptacles must be securely attached inside the primary enclosure and placed so that the receptacles can be filled from outside the enclosure without opening the door.

This inspection was conducted with a cargo representative and the exit interview was conducted with an airline representative.

Additional Inspectors:

Myra Brooks, VETERINARY MEDICAL OFFICER
