

## Inspection Report

University Of California Irvine  
160 Aldrich Hall  
Irvine, CA 92697

Customer ID: **9193**

Certificate: **93-R-0434**

Site: 001

UNIVERSITY OF CALIFORNIA, IRVINE

Type: ROUTINE INSPECTION

Date: 18-NOV-2015

### 2.31(d)(1)(9)

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Major operative survival procedures on a covered species are being performed in a laboratory room that is not a dedicated surgical area and is not being maintained appropriately.

At time of inspection, the following items/conditions were noted in the laboratory space: a sink was present; cardboard boxes were being stored on shelves and under a table; clutter and dust was present on countertops, shelves, a desk, the surgical table and under a table. The floors underneath the surgical table had a moderate amount of dust and debris. The presence of clutter can impede cleaning. Supplies should be stored in containers that can be readily cleaned and sanitized.

Rooms designated for major survival surgeries should be maintained in a manner that protects the health and well-being of the animals.

Major operative procedures on non-rodents will be conducted only in facilities intended for that purpose which shall be operated and maintained under aseptic conditions.

To be corrected for all future major survival procedures.

An exit briefing was conducted with the facility representatives.

Accompanied on inspection by Dr. Tyler Fields, Veterinary Medical Officer.

#### Additional Inspectors

Fields Tyler, Veterinary Medical Officer

Prepared By: JEFFREY LEE, D V M USDA, APHIS, Animal Care
